Special Issue: Shrimp Immunity and Disease Control

Editorial 1

Introduction

Shrimp immunity and disease control
E. Bachère (Montpellier, France) 3

Immunity: SI-DC Programme

Non-Self Recognition Mechanisms

Beta glucan binding protein and its role in shrimp immune response
F. Vargas-Albores and G. Yepiz-Plascencia (Sonora, Mexico) 13

Lectins, as non-self-recognition factors, in crustaceans
M.R.F. Marques and M.A. Barracco (Florianópolis, Brazil) 23

Haemocytes and Haematopoeisis

Crustacean haemocytes and haematopoiesis
M.W. Johansson, P. Keyser, K. Sritunyalucksana and K. Söderhäll (Uppsala, Sweden) 45

Immediate Immune Reactions

The proPO and clotting system in crustaceans
K. Sritunyalucksana and K. Söderhäll (Uppsala, Sweden) 53

Antimicrobial Peptides

Penaeidins, antimicrobial peptides of shrimp: a comparison with other effectors of innate immunity
E. Bachère, D. Destoumieux (Montpellier, France) and P. Bulet (Strasbourg, France) 71

Evaluation of Immune Responses and Health Control

Measurement of reactive oxygen intermediate production in haemocytes of the penaeid shrimp, *Penaeus vannamei*
M. Muñoz (Montpellier, France), R. Cedeño, J. Rodríguez (Guayaquil, Ecuador), W.P.W. Van der Knaap (Wageningen, Netherlands), E. Mialhe (Quito, Ecuador) and E. Bachère (Montpellier, France) 89

State of the art of immunological tools and health control of penaeid shrimp
J. Rodríguez (Guayaquil, Ecuador) and G. Le Moullac (Tahiti, French Polynesia) 109

Environmental factors affecting immune responses in Crustacea
G. Le Moullac and P. Haffner (Tahiti, French Polynesia) 121

Pathology

Experimental infection models for shrimp vibriosis studies: a review
D. Saulnier, P. Haffner (Tahiti, French Polynesia), C. Goarant (Nouméa, New Caledonia), P. Levy and D. Ansquer (Tahiti, French Polynesia) 133

Environment
Ecosystem perspectives on management of disease in shrimp pond farming
N. Kautsky, P. Rönnbäck, M. Tedengren and M. Troell (Stockholm, Sweden) 145

Ecotoxicology
Biochemical responses in penaeids caused by contaminants
A.C.D. Bainy (Florianópolis, Brazil) 163

Nutrition
Experiences on importance of diet for shrimp postlarval quality
P. Lavens and P. Sorgeloos (Ghent, Belgium). 169

Reproduction
Penaeid shrimp hemolymph lipoproteins
G. Yepiz-Plascencia, F. Vargas-Albores and I. Higuera-Ciapara (Hermosillo, Mexico) 177

Endocrinology
Shrimp endocrinology. A review
A. Huberman (Mexico City, Mexico) 191

Physiology
Osmoregulatory capacity as a tool in monitoring the physiological condition and the effect of stress in crustaceans
J.-H. Lignot, C. Spanings-Pierrot and G. Charmantier (Montpellier, France) 209

Immunostimulation
Is there any kind of adaptive immunity in invertebrates?
M. Arala-Chaves and T. Sequeira (Porto, Portugal). 247

General
The use and selection of probiotic bacteria for use in the culture of larval aquatic organisms
B. Gomez-Gil, A. Roque (Mazatlán, Mexico) and J.F. Turnbull (Scotland, UK) 259

VOL. 191 NO. 4 **5 DECEMBER 2000**

Diseases, Parasites and Predators
Immunity enhancement in black tiger shrimp (*Penaeus monodon*) by a probiont bacterium (*Bacillus* S11)
S. Rengpipat, S. Rukpratanporn, S. Piyatiratitivorakul and P. Menasaveta (Bangkok, Thailand) . . . 271

Husbandry and Management
A pulse feeding strategy for rearing larval fish: an experiment with yellowtail flounder
J. Rabe and J.A. Brown (St. John's, Newfoundland, Canada) 289
Alcalase enzyme treatment for elimination of egg stickiness in tench, *Tinca tinca* L.
O. Linhart, D. Gela, M. Flajšhans, P. Duda, M. Rodina (Vodňany, Czech Republic) and V. Novák (Hluboká nad Vltavou, Czech Republic). 303
Flat oyster (*Ostrea angasi*) growth and survival rates at Georges Bay, Tasmania (Australia)
I.M. Mitchell, C.M. Crawford (Taroona, Tasmania, Australia) and M.J. Rushton (Hobart, Tasmania, Australia) 309

Nutrition
Effect of dietary non-protein energy source on growth, nutrient retention and circulating insulin-like growth factor I and triiodothyronine levels in juvenile barramundi, *Lates calcarifer*
L. Nankervis, S.J. Matthews and P. Appleford (Queensland, Australia) 323

Physiology and Endocrinology

Effects of continuous additional light on growth and sexual maturity in Atlantic salmon, *Salmo salar*, reared in sea cages
H.P. Endal (Matredal, Bergen, Norway), G.L. Taranger (Matredal, Norway), S.O. Stefansson (Bergen, Norway) and T. Hansen (Matredal, Norway) 337

The efficacy of exogenous hormones in stimulating changes in plasma steroids and ovulation in wild black bream *Acanthopagrus butcheri* is improved by treatment at capture
J.A. Haddy and N.W. Pankhurst (Launceston, Tasmania, Australia) 351

Seawater adaptability and hormone levels in growth-enhanced transgenic coho salmon, *Oncorhynchus kisutch*
R.H. Devlin (West Vancouver, B.C., Canada), P. Swanson (Seattle, WA, USA), W.C. Clarke (Nanaimo, B.C., Canada), E. Plisetskaya, W. Dickhoff, S. Moriyama (Seattle, WA, USA), T.Y. Yesaki (West Vancouver, B.C., Canada) and C.-L. Hew (Toronto, Ont., Canada) . 367

Erratum

Erratum to "Effect of rapid changes in temperature and salinity on availability of the rotifers *Brachionus rotundiformis* and *Brachionus plicatilis*" [Aquaculture 189 (2000) 85–99]
D.S. Fielder (Taylors Beach, Australia), G.J. Purser (Launceston, Tasmania, Australia) and S.C. Battaglene (Taroona, Tasmania, Australia). 387
